

Of all human symbols of power and strength
From depths of the earth to the shorelines of space

It all revolves around you

In all earthly mourning, through famine and flame
The world simply longs for the Holiest name

It all revolves around you
It all revolves around you
It all revolves around you
It all revolves around you

Only you control the heavens (you hold it all together)
Only you can calm the storm (you hold it all together)
Only you can walk the waters (you hold it all together)
Only you above it all

It all revolves around you
It all revolves around you
It all revolves around you
It all revolves around you

It all revolves around you
It all revolves around you
It all revolves around you
It all revolves around you

Only you control the heavens (you hold it all together)
Only you can calm the storm (you hold it all together)
Only you can walk the waters (you hold it all together)

Jesus Above It All
