

You have called us from the depths
We have turned our ears to heaven
In the quiet we are still
In Your presence
We are longing for what's next
There is beauty in the waiting
In the quiet we will dwell
In Your presence

All that You have for me is good
Is good for my soul
My soul it needs you more

You have brought us back to life
You have given us Your Spirit
There is heaven in our midst
In Your presence

All that You have for me is good
Is good for my soul
My soul it needs you more
All that You have for me is good
Is good for my soul
My soul it needs you more

Here and now my soul surrendered
Here and now My heart your home
Here and now your love runs deeper
Than I have ever known
Than I have ever known

Here and now my soul surrendered
Here and now My heart your home
Here and now your love runs deeper
Than I have ever known
Than I have ever known

All that You have for me is good
Is good for my soul
My soul it needs you more
