

Before the dawn of time
Void of light, there was no life
Before you made the skies
Redemption would be your design

Born like us the same
Veiled in flesh the Godhead came
King of kings brought low
To a manger, not a throne

To save, to save, a wretch like me
Born through pain, to set us free

The babe the angels praised
On a wooden cross was raised
Took my guilt and shame
Before I even knew His Name

To save, to save, a wretch like me

Born to die, on Calvary

Wonderful, Counselor, Mighty God you are
Prince of Peace, Everlasting Lord
Wonderful, Counselor, Mighty God you are
Prince of Peace, Everlasting Lord

The Son of God on high
Came to us this silent night
The blessed son of man
born to heal our broken land
