

I wanna be here
Here in your arms, you're my refuge
Safe from the fiercest fire
You are my strength I can run to

I wanna hear you
And trust every word that you've promised
Jesus, your word is proof
There's never a lie that you've spoken
So I can know that

When I search for the answers
And walk through the desert
You'll find me
I know you'll find me
You have no hesitation
To be my salvation
You find me

Again and Again, you've been my Savior
Again and Again, You tell me I'm yours
Again and Again When I doubted you
You've come through, Again and Again!

I wanna trust you
look to the hills, You're my rescue
Here in the fiercest fire
God you keep me right beside you
When I search for redemption
I find myself empty without you
I need you
You stand with arms open
I know that im chosen
You found me
You always find me

Again and Again, you've been my Savior
Again and Again, You tell me I'm yours
Again and Again When I doubted you
You've come through, Again and Again!

Again and Again, you've been my Savior
Again and Again, You tell me I'm yours
Again and Again When I doubted you
You've come through, Again and Again!

Again and Again, you've been my Savior
Again and Again, You tell me I'm yours
Again and Again When I doubted you
You've come through, Again and Again!
